

CHILDREN'S ELECTRIC MOTORCYCLE

Owner's Manual with Assembly Instructions

Styles and colours may vary.
Made in China.

The owner's manual contains important safety information as well as assembly, use and maintenance instructions.

The Ride-on Car must be assembled by an adult who has read and understands the instructions in this manual.

Keep the package away from children and dispose of properly before use.

Keep this manual for future reference.

On the purchase of your new Ride-On.

This ride-on car will provide your child with many miles of riding of enjoyment. To help assure you and your rider a safe ride we ask you to please read this manual carefully, and keep it for future reference.

Follow the recommendations in this manual, they are designed to improve the safety and operation of your ride-on car and it's rider.

Battery	6V4Ah or 6V7Ah * 1	
Fuse	5A	
Charger	6V500mA or 6V1000mA	

Suitable age: 37~96 Months

Load Capacity: Under 25 kgs

Speed: 2.5 km/h

Size of car: 80 x 43 x 54.5 CM

Power way: Charging type

Charge time: 8 ~ 12 hours

Parts List

2

PART NO.	PART NAME	Q'ty (pcs)		REMARKS
1	Gear box	1		
2	Driving wheel	1		
3	Ø10 washer	4		
4	Bushing	1		
5	Rear wheel	1		
6	Rear axle	1		
7	Vehicle body	1		
8	Backrest	1		
9	Seat	1		
10	Handle bar	1		
11	Front wheel	1		
12	M8x170 bolt	1		Placed on the vehicle body
13	M8x100 bolt	1		Placed in the hardware packaging
14	Ø8 locknut	2		Placed onto the bolts
15	Ø4x12 screw	1		
16	Charger	1		
17	Spanner	1		Placed in the hardware packaging
18	Hexwrench	1		Placed in the hardware packaging
19	Front lights	1		

NOTE: Some parts shown are assembled on both sides of vehicle

WARNING!

FOR THE SAFETY OF YOUR CHILD, PLEASE READ ALL WARNINGS AND ASSEMBLY/USE INSTRUCTIONS. KEEP THIS GUIDE FOR FUTURE REFERENCE.

- **ADULT ASSEMBLY REQUIRED.** The product contains small parts, which are for adult assembly only. Keep children away when assembling.
 - Always remove protective material and poly bags and dispose before assembly.
-
- Make sure that the power switch is **turned “OFF”** before assembling the ride-on.
 - Before first time use, charge the battery for at least 4 to 6 hours.
 - Assembly tools required:

Screwdriver
(not included)

Spanner

Hexwrench

BATTERY INFORMATION

- Non-rechargeable batteries are not to be recharged.
- If removable rechargeable batteries are used, they are only to be charged under adult supervision.
- Remove rechargeable batteries from the product before charging.
- Do not mix old and new batteries. Do not mix different types of batteries: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated inside the battery compartment, anode to anode, cathode to cathode.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the product. Battery leakage and corrosion can damage this product. Dispose of batteries safely.
- Never short circuit the battery terminals.

Remove all the parts from the **rear axle**, and turn the vehicle body upside down.

1. Slide a **Ø10 washer** onto the rear axle from the longer end.
2. Insert the **rear axle with a Ø10 washer** into the hole in the vehicle body from **right hand side**.

- 1,2 Slide the **gear box** onto the **rear axle (Left Side)**. Plug the connector on motor to the connector on the vehicle body.
3. Slide the **driving wheel** onto the rear axle. And keep the **driving wheel** match with the **gear box**.
4. Push the hubcap (in the center of the wheel cover) until it click into place.

1. Slide the **Ø10 Washer** onto the **rear axle (Left Side)**.
2. Slide the **Bushing**(ring end first) onto the **rear axle** .
3. Slide the **Rear wheel** onto the rear axle. And keep it match with the **Bushing**.
4. Push the hubcap (in the center of the wheel cover) until it click into place.

Turn the vehicle body upright.

1. Plug the connector of the vehicle body into the connector of the handle bar.
2. Fit the handle bar assembly against to the vehicle body. And lines up the holes of the vehicle body with the holes of the handle bar.
3. Insert the M8x100 bolt into the hole of handle bar, through the holes on the handle bar, and out through the hole on the vehicle body.
4. Tighten a **Ø8 locknut** to the end of the bolt with a spanner.

1. Insert the M8x170 bolt into the hole on one fork of handle bar.
2. Slide a **Ø10 washer** onto the M8x170 bolt.
3. Fit the **Front wheel** onto the M8x170 bolt.
4. Slide another **Ø10 washer** onto the M8x170 bolt. Continue pushing the bolt until it passes through the other fork of handle bar.
5. Tighten the Ø8 locknut to the bolt with the Hexwrench.

HINT: Use the spanner to hold the M8x170 bolt while tightening the Ø8 locknut with the hexwrench.

6. Fit the tabs of the front lights into the slots on the handle bar.

1. Plug the **Red fuse connector** into the **terminal on battery**.

1. Fit the **tabs on front of the seat** to the **holes on the vehicle body**.
2. Tighten a **Ø4x12 screw** with a screwdriver.
3. Insert the **tabs on the backrest** to the holes in the vehicle body, and push until you hear it click into place.

**WARNING!****PREVENT INJURIES AND DEATHS:****• NEVER LEAVE CHILD UNATTENDED. DIRECT ADULT SUPERVISION IS REQUIRED.**

- Always keep child in view when child is in vehicle.
- This toy should be used with caution since skill is required to avoid falls or collisions causing injury to the user or third parties.
- Protective equipment should be worn.
- Never use in roadways, near cars, on or near steep inclines or steps, swimming pools or other bodies of water.
- Always wear shoes.
- Always sit on the seat.
- Not to be used in traffic.
- This toy is unsuitable for children under 37 months due to its maximum speed; Maximum user weight is 25 kgs.
- This toy has no brake.

Rules for Safe Riding

- Keep Children within Safe Riding Areas:
 - Never use in roadway, near motor vehicles, on lawn space, on or near steep inclines or steps, swimming pools or other bodies of water;
- Use the toy only on flat surfaces. Such as inside your house, garden or playground.
- Never use in the dark. A child could encounter unexpected obstacles and have an accident. Operate the vehicle only in the daytime or a well-lit area.
- It is prohibited to change the circuit or add other electric parts
- Inspect wires and connections of the vehicle periodically.
- Do not let any child touch the wheels or be near them when the car is moving .

Use the vehicle on generally level ground ONLY!

DO NOT Use the vehicle on Lawn space!

1. **Shift Lever:** Changes the direction that vehicle moves from forward to reverse.

- To move the car forward, shift the lever up
- To move the car backward, shift the lever down.
- Shift the lever in the middle, the stop.

2. **Foot pedal:** Applies power (speed) to the vehicle.

- To move the car, press the pedal down.
- To brake or slow down, release pressure from the pedal.

3. **Sounds buttons:** Press for sounds playing.

IMPORTANT!

Always stop vehicle when changing the speed or direction to avoid damage the gears and motor.

WARNING!

• PREVENT FIRE AND ELECTRIC SHOCK:

- Use the only rechargeable battery and charger supplied with your vehicle. NEVER substitute the battery or the charger with another brand. Using another battery or charger may cause a fire or explosion.
- Do not use the battery or charger for any other product. Overheating, fire or explosion could occur.
- NEVER modify the electric circuit system. Tampering with the electric system may cause a shock, fire or explosion or may permanently damage the system.
- Do not allow direct contact between battery terminals. Fire or explosion can occur.
- Do not allow any type of liquid on the battery or its components.
- Explosive gasses are created during charging. Do not charge near heat or flammable materials. Charge the battery in a well-ventilated area ONLY.
- NEVER pick up the battery by the wires or charger. Damage can occur to the battery and may cause a fire. Pick up the battery by the case ONLY.
- Charge the battery in a dry area ONLY.
- Battery posts, terminals and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. **Wash hands after handling.**
- Do not open the battery. Battery contains lead acid and other materials that are toxic and corrosive.
- Do not open the charger. Exposed wiring and circuitry inside case may cause electric shock. Only adults may handle or charge the battery. NEVER allow child to handle or charge the battery. Battery is heavy and contains lead acid (electrolyte).
- Do not drop the battery. Permanent damage to the battery could occur or cause serious injury.
- Before charging the battery, check for wear or damage to the battery, charger, its supply cord and the connectors. DO NOT charge the battery if any damage to parts has occurred.
- Do not allow the battery to drain completely. Recharge the battery after each use or once a month if not used regularly.
- Do not charge battery upside down.
- Always secure the battery with the bracket. Battery can fall out and injure a child if vehicle tips over.

- The POWER SWITCH must be turned in **OFF** position when charging.
- Before the first use, you should charge the battery for 4-6 hours. Do not recharge the battery for more than 10 hours to avoid overheating the charger.
- When the vehicle begins to run slowly, recharge the battery.
- After each use or once a month minimum recharge time as 8 to 12 hours, less than 20 hours at most.

1. Plug the charger port into the input socket. (the socket is at back of vehicle)
2. Plug the charger plug into a wall outlet. The battery will begin charging.

WARNING!

This product with **Charging Protection**: when charging, all functions will be cut off!
Only an adult can charge and recharge the battery!

The battery features a thermal fuse with a reset fuse that will automatically trip and cut all power to the vehicle if the motor, electric system or battery is overloaded. The fuse will reset and power will be restored after the unit is turned OFF for five Minutes and then turned ON again. If the thermal fuse trips repeatedly during normal use, the vehicle may need repair. **Contact your distributor please.**

To avoid losing power, follow these guidelines:

- Do not overload the vehicle.
- Do not tow anything behind the vehicle.
- Do not drive up steep slopes.
- Do not drive into fixed objects, which may cause the wheels to spin, causing the motor to overheat.
- Do not drive in very hot weather, components may overheat.
- Do not allow water or other liquids to come in contact with the battery or other electric components.
- Do not tamper with the electric system. Doing so may create a short, causing the fuse to trip.

Battery Replacement and Disposal

The battery will eventually lose the ability to hold a charge. Depending on the amount of use, and varying conditions, the battery should operate for one to three years. Follow these steps to replace and dispose the battery:

1. Remove the car seat.
2. Disconnect the battery connectors.
3. Remove the battery bracket.
4. Remove the battery cover.
5. Carefully lift the battery.
 - Depending on the condition of the battery (i.e.: leakage) you may want to wear protective gloves before removal.
 - Do not lift the battery by its connectors or cables.
6. Place the dead battery in a plastic bag.

Important! Recycle the dead battery responsibly. The battery contains lead acid (electrolyte) and must be disposed of properly and legally. It is illegal in most areas to incinerate lead acid batteries or dispose of them in landfills. Take it to a federal or state-approved lead acid battery recycler, such as local automotive battery retailer. Do not throw the battery away with your regular household waste!

7. Replace the battery and reconnect the connectors.
8. Replace the metal battery bracket.
9. Replace the seat.

Problem	Possible Cause	Solution
Vehicle does not run	Battery low on power	Recharge battery.
	Thermal fuse has tripped	Reset fuse, see <Fuse>
	Battery connector or wires are loose	Check that the battery connectors are firmly plugged into each other. If wires are loose around the motor contact your distributor please.
	Battery is dead	Replace battery, contact your distributor please.
	Electrical system is damaged	Contact your distributor please.
	Motor is damaged	Contact your distributor please.
Vehicle does not run very long	Battery is under charged	Check that the battery connectors are firmly plugged into each other when recharging
	Battery is old	Replace battery, contact your distributor please.
Vehicle runs sluggishly	Battery low on power	Recharge battery, contact your distributor please.
	Battery is old	Replace battery, contact your distributor please.
	Vehicle is overload	Reduce weight on vehicle. Maximum user weight is 25 kgs.
	Vehicle is being used in harsh conditions	Avoid using vehicle in harsh conditions ,see <Safety>.
Vehicle needs a push to go forward	Poor contact of wires or connectors	Check that the battery connectors are firmly plugged into each other. If wires are loose around the motor, contact your distributor please.
	"Dead Spot" on motor	A dead spot means the electric power is not being delivered to the terminal connection and the vehicle needs repair. Contact your distributor please.
Difficult shifting from forward to reverse or vice-versa	Attempting to shift while the vehicle is motion	Completely stop the vehicle and shift, see <Use Your Ride-On>
Loud grinding or clicking noises coming from motor or gear box	Motor or gears are damaged	Contact your distributor please.
Battery will not recharge	Battery connector or adapter connector is loose	Check that the battery connectors are firmly plugged into each other.
	Charger not plugged in	Check that the battery charger is plugged into a working wall outlet.
	Charger is not working	Contact your distributor please.
Charger feels warm when recharging	This is normal and not a cause for concern	

Completely read through this manual and the troubleshooting guide table before calling. If you still need help resolving the problem **Contact your distributor please.**

- It is parents' responsibility to check main parts of the toy before using, Must regularly examine for potential hazard, such as the battery, charge, cable or cord, plug, screws are fastening enclosure of other parts and that in the event of such damage, the toy must not be used until that damage had been properly removed.
- Make sure the plastic parts of the vehicle are not cracked or broken.
- Occasionally use a lightweight oil to lubricate moving parts such as wheels.
- Park the vehicle indoors or cover it with a tarp to protect it from wet weather.
- Keep the vehicle away from sources of heat, such as stoves and heaters. Plastic parts may melt.
- Recharge the battery after each use. Only an adult can handle the battery. Recharge the battery at least once a month when the vehicle Raider is not being used.
- Do not wash the vehicle with a hose. Do not wash the vehicle with soap and water. Do not drive the vehicle in rainy or snowy weather. Water will damage the motor, electric system and battery.
- Clean the vehicle with a soft, dry cloth. To restore shine to plastic parts, use a non-wax furniture polish. Do not use car wax. Do not use abrasive cleaners.
- Do not drive the vehicle in loose dirt, sand or fine gravel which could damage the moving parts, motors or the electric system.
- When not using, all the electrical source should be turn off. Turn off the power switch and disconnect the battery connection.

Our products are suitable for
ASTM F963; GB6675; EN71 and ***EN62115*** standard.
